Foreclosure Attorney Procedure Manual, Version 1

Status: Revision 3
Origination Date: 11/09/2011
Date Last Published: 02/24/2012

Purpose

Pre-Introduction

We ask that you share this manual within your office, including those who may not be directly involved, to educate your staff on the Foreclosure program

High Level Description of Process

Delinquent loans will be referred to the attorney once set up in the Foreclosure Workstation after the expiration of the demand. The attorney will be handling these loans from Referral to Sale/Confirmation/Redemption. The assigned Wells Fargo liaison will assist the attorney with any issues that arise outside of the normal process and review audit results.

Upon completion of the required documentation, the attorney will be authorized to file the Foreclosure Notice, keep Wells Fargo up to date, and address objections to the Foreclosure without loan level approval under established timeframes/guidelines. Any over-allowable or hourly fee requests not listed in the pre-approval form will require loan level approval from Wells Fargo.

If the attorney receives notice of an adversary, litigation issue, motion for sanctions, or any issue the attorney cannot complete in a time manner timely or any issue that will cause a delay in the timely execution of the sale, refer to the [Litigation](#) section of this manual. Wells Fargo will provide further instruction upon receipt of the communication from the attorney. The attorney will also be required to receive authorization for all over-allowable fees and costs as well as hourly billing requests for items not covered by the pre-approval form.

If the mortgagor contacts the attorney, and the attorney is unable to answer, the customer should be directed to the appropriate customer service number listed below. ***At no time should the Wells Fargo Liaison's direct phone line be provided to outside parties.***

Overview

The Foreclosure program has been designed to complement a Foreclosure attorney's current process, procedures and responsibilities through streamlining the necessary contact points with Wells Fargo and providing greater independence to the attorney's firm.

The program also leverages existing Wells Fargo automation. One of the key trigger points for automation is the addition of scheduled steps and the completion of steps (though the input of the actual date.) The expanded procedures of this section focus solely on the new expectations of the firms.

Each process section will have a breakdown of the overall flow, exact steps for exception processing, an outline of any reports that will be sent to the attorney, and specific compliance expectations and quality measurements. Please remember that the reports are to be a tool to assist in meeting all time frames, goals and compliance requirements.

Wells Fargo Home Equity / Wachovia Equity / Wells Fargo Financial

Your office may receive referrals for files that are for specialty portfolios. These foreclosures should be processed following your normal procedures. DO NOT contact your liaison for questions on these files. All questions and communication should be directed to the processor listed in VendorScape, Desktop, or on the FOR1 screen in MSP.

Desktop Referrals

As of June 6, 2011, all new referrals will be sent through Desktop instead of VendorScape. Desktop referrals can be identified by the K33 step, REFERRED IN DESKTOP on the FOR3 screen in MSP. You will still have loans that were previously referred through VendorScape that should continue being processed during this time.

Reports

You will receive several daily, weekly, and monthly reports to assist you in effectively monitoring and processing of your portfolio. The reports will be listed within the appropriate section of the manual. Effective February 15, 2012, for attorneys, the reports will be uploaded to your DTS mailbox. First, refer to your Transmission Confirmation Document. Then, access your Prod URL. Finally, key in your Universal ID/Logon ID. For liaisons, the reports will be in the **DS_FC_AttorneyRpts** folder on the shared drive. Reports are to be considered either "reference" or "action required." Reference reports are meant to give a status of the portfolio. Action required reports alert you of a task that needs to be performed. The following reports are meant to give you a general overview of the status of your portfolio.

Attorney – Trial Balance Report: Provide attorney with a weekly list of all pre-sale loans in his/her inventory (Reference).

Late Step Report: Provide attorney with a daily list of all foreclosure steps on FOR3 that are pending or past due. The attorney is to work this report to ensure the foreclosure is within investor timeline (Action Required).

Liaison – Late Step Report: Provide liaison with a list of all foreclosure steps that are pending or past due (Action Required).

Default Document Process

Initial Document Process

The Default Document Department proactively orders all available original loan documents for loans that are more than 60 days delinquent. Documents include the original note, recorded mortgage, title policy, and recorded and unrecorded assignments. Documents are sent to imaging so that at the time of referral they can be uploaded via VendorScape or Desktop to the Foreclosure Attorney.

If the note has been imaged on a **COPY STATE**, LIV automatically will upload the document to VendorScape or Desktop and complete step N82, NOTE SENT TO ATTY, on FOR3 in MSP.

- For an **ORIGINAL DOCUMENT STATE**, the note will be imaged onto Loan Image Viewer.
- Once the loan is referred to foreclosure, Default Docs will ship the original note to the attorney’s office and complete step N82, NOTE SENT TO ATTY.

Title Issues

A title issue can prevent Wells Fargo from taking title to a property that we foreclose on and can be a serious problem. It is the Attorney's responsibility to resolve all title issues. In the event you are unable to do so, you will need to complete the following steps.

Attorney:

When a title issue is identified and your office needs documents in order to facilitate the claim:

STEP	ACTION
1	Insert step 535 (Title Doc Req'd from WFHM) into MSP and complete with the current date (step needs to be entered manually on Desktop files).
2	Send an email to FCLTITLEMAILBOX@WELLSFARGO.COM indicating which documents are needed

When a title claim is being filed , ALWAYS perform the following steps:

STEP	ACTION
1	<p>Insert step 536 (Title Claim Filed) into MSP and complete the date with the date the claim was sent to the title company (step needs to be entered manually on Desktop files).</p> <ul style="list-style-type: none"> If the title issue can be resolved via judicial foreclosure and/or adding a reformation count to the foreclosure, please ensure this is communicated to the title company with your title claim along with a quote for fees/costs, in an effort to expedite movement of the foreclosure action
2	Provide a copy of the title search providing detailed information with regard to the cloud on title, including documents identified as a title issue. A copy of the commitment, title policy, and HUD-1 also should be provided with the claim letter, if applicable.
3	<p>Upon acceptance of coverage from the title company, insert step 538 (Title Claim Accepted) in MSP and complete the date with the date that correspondence was received indicating they are accepting coverage (step needs to be entered manually on Desktop files).</p> <ul style="list-style-type: none"> Because formal coverage determinations are not always distributed, you may utilize this step when any correspondence is received from the title company confirming that curative

	measures are in process.
4	If within the course of the resolution of the title issue it becomes apparent that the title issue will delay the foreclosure, enter the D52/D53 steps (see below) at that time and enter a message detailing the change in action
5	When the title claim is resolved, please insert the T66 step into the FOR3 screen in MSP to confirm that the title issue has now been resolved.
6	If a title issue is being cured throughout the foreclosure action, the D53 step is completed because the title issue is not delaying the sale; however, the T66 step should remain open until judgment is entered and the action is not disputed due to title.

When a title claim is filed and it will cause a delay to the foreclosure action and you cannot proceed until cured:

STEP	ACTION
1	Follow the above title claim steps
2	Contact your liaison through VendorScape or Desktop and provide all information pertaining to the title issue, with detailed chronology and recommendations for resolution in VendorScape or Desktop
3	On the FOR3 screen in MSP, enter the step D52 TITLE PROBLEM and complete the actual date with the current date and enter the step D53 TITLE PROBLEM RESOLVED with a float set at 30 days from the actual date of the D52 step (this will alert your office to follow up on the title issue).
4	For VendorScape , proceed to Step 5 For Desktop, proceed to Step 7
5	For VendorScape referrals, under Task, select Add
6	Select "Production Task-Legal/Title Problem." When this task is added, both the D52 and D53 automatically are mapped to MSP. The D53 step will map over as an open step; do not complete the actual date until the title issue is resolved. Proceed to Step 13
7	For Desktop referrals, go to the File Transfer Form on the Tool Menu and launch the FC_Title_Issue_Direct_Source or FC_Title_Issue_InHouse_Referred or FC_Title_Issue_InHouse_Non_Referred process.
8	Complete the Title Issue Found DDF. The Desktop file also will need to be placed on hold if the title issue is preventing your office from proceeding with the foreclosure.
9	Complete the Title Issue Found DDF. The Desktop file also will need to be placed on hold if the title issue is preventing your office from proceeding with the foreclosure.
10	Select Holds from the Tool Menu
11	Select "FC Title Issue" as the hold reason.

11	Provide a brief description of the title matter, how the matter can be best resolved, and the amount of fees requested to cure.
12	Upload a copy of the actual title report to imaging along with a title worksheet describing the problem and the breakdown of fees. This procedure is only to be used if the Title Issue is delaying the foreclosure
13	Your office will need to provide updates on the title issue every 30 days until the issue is resolved.
14	Once the title issue is resolved, enter the actual date for step D53 in MSP with the date the issue was resolved.
15	Provide a detailed explanation in VendorScape or Desktop as to how the issue was resolved
16	Notify the Liaison of any title issues that either cannot be resolved prior to sale or cannot be addressed by your office.

*****Please note***** If the title issue is solely a government seizure or forfeiture, the D52/D53 steps should not be utilized to measure the delay timeframe. Please see Litigation on how to handle appropriately.

Attorney: For all other delinquent tax issues, check the TAX2 and TAXN screen on MSP to see if taxes have been disbursed. The bottom right section of screen shows disbursement and refund history available to you on the TAX2 screen.

3

Attorney: Once you have validated that the taxes need to be paid to ensure our lien is not jeopardized, determine if the loan is escrowed or non-escrowed for taxes. If the bill code on TAX2 (see above example) is equal to a “3,” it is a non-escrowed loan. Any other bill code (A, B, C, 1, 2) indicates the loan is escrowed for taxes. Notification to the tax department can be completed through VendorScope.

Appendix F– NJ Mortgage Stabilization Act

NJ Mortgage Stabilization Act (Amended effective July 2, 2009)

Expires January 1, 2011

The NJ Stabilization and Mortgage Relief Act was amended to include a subprime definition which was defined by the state and to further define “high cost” loans. The statute also clarified that the intent of the act is to actually “serve” a notice to qualified borrowers to inform them of their rights under the amended act.

Procedures for loans with complaints served on or after July 2, 2009;

- (1) Notice of the forbearance period must be served with the foreclosure complaint. The notice must contain certain information set forth in the amendment
 - a. Foreclosure attorney to determine which files qualify for the notice based on the following definitions and upon review of the TIL;
 - i. Subprime- The term "subprime" is now defined in the amendment. The definition requires the use of an index. We have identified a website that contains three indexes. Please add 1.5 percentage points to the lowest listed average in the three indexes for the time period when each loan closed. If the interest rate on the TIL is higher than the lowest index plus 1.5 percentage points, then the loan will be considered subprime within the meaning of the Act. The following index will be used; http://mortgage-x.com/general/national_monthly_average.asp?y=2006
 - ii. Default Docs has ensured the TIL will be available within 5 days of referral.
 1. Default docs will be checking for the TIL at day 45 of delinquency.
 2. If the TIL is not imaged, they will request from file management to have the TIL imaged.
 3. VendorScape has added the TIL as a document to add w/the referral.
 - iii. The definition of a high risk mortgage loan that appeared to refer to adjustable rate mortgages has been clarified to apply to mortgages with “a reset mortgage interest rate that increases the initial interest rate by two or more percentage points.” The attorney should review SER1/ARM1 to review the initial interest rate or origination rate. If the initial interest rate change increases the origination rate by 2 points or more, the loan is considered high risk.
 - (2) The forbearance period will only take effect if the borrower "opts in" by notifying the lender in writing, within thirty (30) days after receiving the summons and complaint. (I suggest allowing the attorney to accept within 35 days of receipt to allow time for mailing, weekends, etc.)
 - (3) The forbearance period will start on the day the lender receives written notice from the borrower; and, the lender must notify the Court of the starting and ending dates of the forbearance period.
 - a. Attorney to add J90- NJ State hold and complete the actual date upon receipt of the written correspondence from the borrower
 - b. J91 NJ Resume step should have a forecast date of 180 days and actual date to be populated at the end of the forbearance period.
 - c. Once notice is received from the borrower, all activity that would in any way advance the foreclosure is suspended. Appendix G – CO Foreclosure Deferral

Appendix G – CO Foreclosure Deferment

Colorado HB 1276 Foreclosure Deferment- August 1, 2009

Attorney Procedures

The new law, known as the “Time Out Bill” or the “Foreclosure Deferment Bill” will be effective for foreclosures filed after August 1, 2009. In summary, eligible borrowers can apply for and may receive a 90-day deferment of the foreclosure on their property if they qualify.

Liaison Responsibility

NA

Attorney Procedures

Within 15 calendar days of delivering a complete foreclosure package to the public trustee, the holder of the indebtedness must post a notice on the property advising the eligible borrower that they may qualify for a deferment.

1. If interested, the **Eligible Borrower** must contact a HUD-approved counselor within 20 calendar days of the posting of the special notice.
2. The counselor will promptly notify the holder and their attorney that he/she has been contacted by a borrower. Within 10 days of notification by the counselor, the holder must notify the counselor in writing of an address to be used for payments (as well as electronic payment information).
3. Within 30 days of the initial contact with the borrower, the counselor shall determine if the **eligible borrower qualifies** for the deferment. An **eligible borrower** is automatically disqualified if:
 - a. the property is abandoned
 - b. Gross waste has been committed on the property
 - c. The borrower is currently in Bankruptcy or within the last 24 months has received a discharge under Chapter 7 of the Bankruptcy Code or has received a discharge under Chapter 13 of the Bankruptcy Code in which the borrower received a modification of his loan.
4. If the counselor determines that the deferment is warranted, the counselor must certify to the public trustee the deferment within the initial 30-day time frame. At that time, the public trustee will place the foreclosure on hold, notify the foreclosure attorney, will cancel all publications and will begin to postpone the foreclosure sale week to week.
5. Foreclosure attorney will utilize the mediation procedures to place the file on hold for 90 days. **(See mediation procedures below)**
 - a. The K74 and K75 mediation steps should be placed on the loan per the mediation procedures. This will prompt Cash to accept payments accordingly.
6. During the 90-day deferment period the following shall occur:
 - a. Holder and borrower shall negotiate the opportunity for a workout of the subject loan.
 - b. The borrower shall make payments to the **attorney** in the amount of 66.667 percent of the monthly P&I payment due prior to the delinquency and if the debt was escrowed, 1/12 of the taxes and insurance due prior to the delinquency.
 - c. The attorney is to forward payments to;

Appendix N – FL- Verification of Foreclosure Complaints

On February 11, 2010, The Florida Supreme Court Task force ruled that any foreclosure complaints initiated in the state of FL must be verified by the lender/servicer.

In order to comply with this requirement, 3 of 4 of our foreclosure attorneys created secure web portals to deliver a copy of the complaint and declaration for signature. Non-Portal attorneys are emailing their complaints to a mailbox monitored by DOS.

Procedures:

1. Attorney (Default Law and Marshal Watson) to upload copy of complaint and declaration to web portal for verification.
2. DOS staff logs into the web portals and monitors the web portals and the FL Declaration mailbox daily to verify complaints
3. After verifying the complaints, DOS signs the declaration and sends the declarations via overnight mail to applicable attorney's office.
4. Attorney files complaint with attached verification forms.
